

## Experimental homelessness bulletin for CRHB

This report can be produced using CLG data every 3 months. It is based on CLG data comes from every district / borough across the country via the P1E form, which each district is required to complete. It also draws on annual rough sleeper counts and estimates. This report focusses on our local area and covers Cambridge, Fenland, East Cambs, Huntingdonshire, South Cambs, Forest Heath, St Edmundsbury and Peterborough. Data is available for the whole of England if needed at (see sources at end of this note).

For each topic covered, there is a table giving annual figures and the most recent 3 monthly data, to show the most recent update and trends over time.

In time, using new tools and skills, will be able to produce this virtually automatically based on CLG data releases.

## Other possible tables...

- Number in temporary accommodation at end of the latest quarter, in Bed and breakfast (including shared annexe), Hostels, LA/HA stock, Private sector leased (by LA or HA), or Other types (including private landlord)
- Duty owed but no accommodation has been secured at end of December 2015

## Feedback

- Do you have other suggestions?
- Does this cover what you'd like to know?
- Would you prefer to see every 3 or 6 months? Or just access it on line, with an email to alert you to a new edition (similar to housing market bulletin)?
- Is it a good balance of words, tables and pictures? Any suggestions to adjust the format (bearing in mind the automated report will look a bit different, this version just gives the "gist"?)
