## ACORN - WHAT IS IT?

Acorn is a geodemographic segmentation of the UK's population. It segments households, postcodes and neighbourhoods into 6 categories, 18 groups and 62 types. By analysing significant social factors and population behaviour, it provides precise information and an in-depth understanding of the different types of people.

This Acorn Profile provides a detailed understanding of the people who interact with your organisation. It helps you learn about their relationship with you. This knowledge gives you the opportunity to target, acquire and develop profitable customer relationships and improve service delivery.

The User Guide (available to download at <http://\acorn.caci.co.uk>) describes at each Acorn type across a wide range of demographic, behavioural and attitudinal attributes. The descriptions of each category, group and type provide an overview of the wider range of topics for which information is available.

Acorn draws on a wide range of data sources, both commercial and public sector Open Data and administrative data. These include the Land Registry, Registers of Scotland, commercial sources of information on age of residents, ethnicity profiles, benefits data, population density, and data on social housing and other rental property. In addition CACI has created proprietary databases, including the location of prisons, traveller sites, age-restricted housing, care homes, high-rise buildings and student accommodation. We also utilise the traditional inputs of the Census of Population and large-
