

COVID-19 Vaccines

THE MISUNDERSTANDINGS

FALSE

FACT

It was rushed and isn't safe

The vaccine has been rigorously tested and is shown to be safe, effective and your best protection against Covid-19

It can make you infertile

There is nothing in the vaccine that can adversely affect fertility

It alters your DNA

It is physically impossible for the vaccine to enter our DNA and it cannot change or alter it in any way

It contains meat products

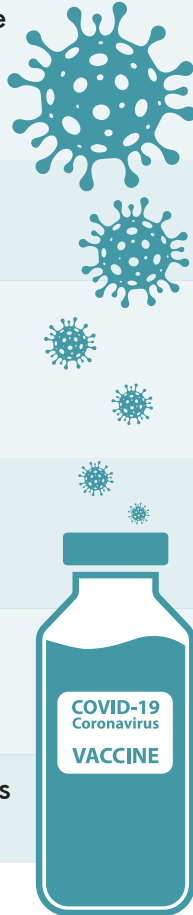

There are no meat derivatives or porcine products, including gelatine, in the vaccine

It will give me Covid-19

The vaccine does not contain live virus strains and therefore cannot cause Covid-19

It causes severe side effects

Most people will suffer **NO** side effects (not even mild ones)

For local, impartial advice on Covid-19, including the vaccine, talk to the Rosmini Centre, Wisbech, 69A Queens Road, PE13 2PH
